

EDUCATION

Full Stack JavaScript Developer School of Applied Technology

01/2023 - 04/2023

Amsterdam, Netherlands

Courses

- Completed an intensive 4-month full stack JavaScript training program, excelling in TDD, mob programming, and applied learning methodologies.
- Successfully created two full stack applications during the course, showcasing practical skills and hands-on experience.
- Participated in weekly code reviews, actively engaging with instructors and peers to provide and receive feedback.
- Engaged in weekly demonstrations of the previous week's work, presenting developed features and functionality to instructors and peers

C# Development Self-Study

01/2022 - Present

Courses

- During this period, I engaged in self-directed learning to master C# and its associated frameworks. I utilized a variety of online resources, including tutorials, documentation, and coding platforms.
- Through this self-study journey, I gained a comprehensive understanding of C# fundamentals, object-oriented programming, and various frameworks such as .NET and ASP.NET.

Master's degree, Applied Mathematics Tbilisi State University

09/2018 - 08/2020

Tbilisi, Georgia

Bachelor's degree, Mathematics Tbilisi State University

09/2014 - 07/2018

Tbilisi, Georgia

WORK EXPERIENCE

Math teacher

Student preparation centre "IQ".

09/2015 - 08/2020

Tbilisi, Georgia

"IQ" provides comprehensive resources and support to ensure students are well-prepared and confident when facing their national exams.

Achievements/Tasks

- Teaching mathematics to graduating classes students.
- Consistently achieved positive feedback from track header colleagues and students for the ability to deliver exceptional student support and breaking down complex material for easy understanding.
- All my students achieved a passing grade on the exam.

SKILLS

JavaScript

TypeScript

React.JS

Node.JS

HTML

CSS

Express.JS

C#

ASP.NET Core

Entity Framework

SQL Server

MySQL

FireBase

MongoDB

REST

TDD

Cypress

PERSONAL PROJECTS

Personal Portfolio (05/2023 - 05/2023)

- Portfolio Website created with Typescript, React.JS, CSS, useFormHook, and EmailJS API Integration.

FoodHub (04/2023 - 04/2023)

- The website is a versatile platform for all things related to food and cooking. Users can search for recipes by name or based on the ingredients they have on hand. The website also provides a space for users to write and share food blogs.
- Technical stack: Typescript, React.JS, FireBase were used. The Open Food API was used as my external API source.

Quotopia (03/2023 - 03/2023)

- The application is a user-friendly platform that allows users to explore and collect inspirational quotes. It's created for a 24 hour hackathon.
- Technical stack: React, Typescript, Express.JS, Rest Api, CSS, MongoDB, and FireBase were used. The Open Quotes API was used as my external API source.

HackTogether (03/2023 - 04/2023)

- This website aims to foster a vibrant community where developers can find projects aligned with their skills and interests, and project owners can attract talented individuals to their teams.
- Technical stack: Typescript, React, Express.JS, Rest Api, CSS, FireBase were used.

CERTIFICATES

C# (Basic) (06/2022 - 06/2022)

C# certificate from HackerRank

Java (Basic) (04/2022 - 04/2022)

Java certificate from HackerRank

Full Stack JavaScript Developer (01/2023 - 04/2023)

Graduation certificate from the School of Applied Technology

Responsive Web Design (01/2022 - 03/2022)

Responsive web design certificate from Free code camp

JavaScript Algorithms and Data Structures (03/2022 - 04/2022)

JavaScript Algorithms and Data Structures certificate from Free code camp

Front End Development Libraries (04/2022 - 05/2022)

Front End Development Libraries certificate from Free code camp

LANGUAGES

Georgian

Native or Bilingual Proficiency

English

Full Professional Proficiency
